**Andrejević Endowment**

The Andrejević Endowment was founded on the 18th of September 1994 in Belgrade by Professor Dr. Dušanka Andrejević and Professor Dr. Kosta Andrejević. By the Decree of the Ministry of Culture of the Republic of Serbia, the Andrejević Endowment was included into the Register of Endowments (as number 45) on the 20th of March 1994.

The Andrejević Endowment aims to:

1. support creativity in all fields and disciplines of science,
2. provide assistance to talented scientists in publishing of their first works - masters' and Ph.D. theses,
3. establish a library of contemporary science publications and reviews from all over the world, and
4. encourage development of science and its critical assessment.

The best master theses chosen according to the well defined criteria of the Andrejević Endowment are published in the **Initium Edition**.

**Nina Manojlović** was born in Kragujevac in 1986. She graduated in 2008 at the Faculty of Philology and Arts, University of Kragujevac, Department of English Language and Literature. She finished her master studies in 2010 at the Faculty of Philology, University of Belgrade, Department of English Language and Literature. She holds the certificate for teachers of business English (FTBE) awarded by the London Chamber of Commerce and Industry.

Field of interest: English language teaching methodology. She currently works at the University of Kragujevac and is enrolled in Doctoral Studies of Language and Literature at the Faculty of Philology and Arts, University of Kragujevac.

... "The results of the research point to the advantages of this type of approach to English language teaching, as well as problems teachers may encounter within this approach."...

... "The paper represents a valuable contribution to the development of use of computers in teaching and clearly shows the importance of CALL but also points out the importance that teacher feedback can have on the learning outcome."...

Assistant Professor Jelisaveta Šafranĳ, Ph.D  
Assistant Professor Jasmina Đorđević, Ph.D

The monograph *Language Learning and Computers: Friends or Foes?* is based on the master thesis "Computer-constructed Quizzes and Noticing", defended on 11th June 2010 at Faculty of Philology, University of Belgrade, Assistant Professor Radmila Popović, Ph.D (mentor).
